III. Costs/Limitations Disclosures

(A) Additional types of costs that a user may be required to pay to implement or use the EHR Module’s capabilities, whether to meet meaningful use objectives and measures or to achieve any other use within the scope of the EHR Module’s certification:

The EHR Module requires the use of additional software to implement or use this EHR Module’s capabilities to meet meaningful use objectives and measures, and Henry Schein offers the Dentrix Enterprise Meaningful Use Module, Dentrix Enterprise ePrescribe and the Dentrix Enterprise Patient Portal containing this additional software for this purpose. These add-on solutions require an additional annual fee for each health care professional, such as a dentist, that uses the software. This additional fee varies based upon the configuration purchased, and covers all features, functionality and services required to meet meaningful use objectives and measures.

(B) Limitations that a user may encounter in the course of implementing and using the EHR Module's capabilities, whether to meet meaningful use objectives and measures, or to achieve any other use within the scope of the EHR Module's certification:

Users will encounter no limitations, whether by contract or otherwise, on the use of any capability to which the EHR Module is certified for any purpose within the scope of the EHR Module's certification, or in connection with any data generated in the course of using any capability to which the EHR Module is certified. In addition, users will encounter no limitations, including but not limited to technical or practical limitations of technology or its capabilities, that could prevent or impair the implementation or use of any capabilities to which the EHR Module is certified, or that could prevent or limit the use, exchange or portability of any data generated in the course of using any capability to which the EHR Module is certified.
